PRESS RELEASE 17.04.2018

The NEW GENERATION AVIATION - STRATEGIES, TECHNOLOGIES, SOLUTIONS International Conference and Exhibition is organized by the Polish Air Force Academy in Dęblin and the Warsaw Exhibition Board company (ZTW S.A.).

It is a continuation and expansion of the AIRPORT conference series which focused on ground infrastructure for air transport. Thanks to its transparent formula, careful choice of speakers from Poland and abroad, and care taken to ensure a quality, merit-based debate, this event has secured a permanent place on the calendars of all those whose business is related to civil and government aviation.

Topics at the conference

Although in view of this year's 100th anniversary of the Polish air force, celebrated in December, the conference topics invoke the heritage and history of Polish aviation, the focus is on a whole series of current issues related to civil and government aviation: the Central Transportation Port (CPK) in the context of air transport development in Poland and Europe, safety and security in civil and government aviation, technologies of the future for airports and airbases, air traffic control and airspace management, and models of aviation authority operation in the context of plans to establish a military aviation authority.

Experts in civil and government aviation

Guests who have confirmed their participation in this year's conference include representatives of the Ministry of Infrastructure, the Ministry of National Defence, the Ministry of Entrepreneurship and Technology, the Polish Sejm, the International Air Transport Association, the European Organization for the Safety of Air Navigation (EUROCONTROL), the Board of Airline Representatives in Poland, the Civil Aviation Authority, the Polish Air Navigation Services Agency, the Polish Armed Forces General Staff, the Polish Armed Forces General Command, the General Police Headquarters, the Headquarters of the Border Guard, LOT Polish Airlines, the Polish Airports State Enterprise (PPL) - Chopin Airport in Warsaw, Łódź Airport, Rzeszów Airport, Katowice Airport, Radom Airport, Zielona Góra/Babimost Airport, Kraków-Balice Airport, the Polish Regional Airports Association, the 33rd Airlift Base, the Polish Air Force Academy, the War Studies University, the Defence Ministry's Armament Inspectorate, the Defence Ministry's Inspectorate for Implementation of Innovative Defence Technologies, the Air Force Inspectorate of the Polish Armed Forces General Command, the Air Operations Centre of the Polish Armed Forces Operational Command, the Polish Naval Academy, the 25th Air Cavalry Brigade, the 1st Tactical Air Wing, the Headquarters of the Military Police, the Provincial Police Headquarters in Poznań, the Nadwiślański Border Guard Regional Unit, the Military Air Traffic Service Office of the Polish Armed Forces, the 3rd Airlift Wing, Polska Grupa Zbrojeniowa, the Central Military Bureau of Design and Technology, the Institute of Aviation, the Air Force Institute of Technology, the Polish Development Fund, LS Airport Services, LOT AMS, Welcome Airport Services, Orlen Aviation, Lotos Air BP, Indra Sistemas, the University of Warsaw, the Cracow University of Economics, the Marshal Office of Lubelskie Province, the Lubelskie Province Governor's Office, the Marshal Office of Podkarpackie Province, the Mazovian Unit for EU Programme Implementation, the Institute of Non-Ferrous Metals, the Polish Aviation Club and Polskie LNG.

Exhibition of aviation and airport technologies

The conference is accompanied by an exhibition of advanced and promising aviation technologies, including rocket and satellite technology, that are the effect of many years of experience of aviation and airport equipment users as well as research and development work carried out by scientific institutes.
